REQUEST FOR QUALIFICATIONS (RFQ)

Bowers Brook July 2023 Flood
Restoration Project
Construction Effort

The Town of Acworth, NH requests interested construction firms to submit qualification statements for river and bank restoration work, for the Bowers Brook Flood Restoration Project.

The purpose of this project is to restore Bowers Brook in the Town of Acworth to its location prior to the July 2023 flood and to replace the banks with adequate construction material prior to June 2024. Timing is critical to prevent the loss of the South Acworth church, the community aid building, utility infrastructure, 123A state road and the South Acworth Store.

Qualified construction firms are invited to provide a qualification statement which includes the following information:

- Company overview
- Resumes of key staff or individual skill descriptions that apply to this effort.
- Consultants who may be used
- Experience with similar projects, including river restoration, bank restoration and environmental policy act (NEPA) compliance.
- Experience with State and Federally funded projects.
- Availability to perform the work within the desired timeframe.
- References (for similar projects if possible)

A technical proposal including project understanding and project approach is not required at this time and will not be reviewed if submitted.

A shortlist of firms will be developed, and those firms will be interviewed. The Town will rank firms based on qualifications, material and equipment readiness and past experiences.

The Town of Acworth intends to proceed utilizing ARPA funds approved and made available by NH Department of Environmental Services (NH DES) to the Town of Acworth.

Qualification packages (5 copies) are to be delivered to the Town no later than 3:00PM, Thursday, March 14, 2024. Packages are to be addressed to:

Town of Acworth, Town Administrator
PO BOX 37
Acworth, NH 03601
